SW1500
BEST IN THE WORLD

The SW1500 is a powerful fog machine designed for professional use in event productions and stage performances. With a fast heat-up time of only four minutes, this machine is capable of producing up to 10,000 cubic feet of fog per minute, making it ideal for large venues and outdoor shows. The machine features an aluminum heater block and a 0.9-gallon fluid tank capacity, allowing for continuous operation at maximum output. With DMX-512 control protocol and both 3-pin and 5-pin XLR data connectors, the SW1500 can easily integrate into your existing lighting setup. This durable fog machine has a net weight of 27 kg and dimensions of 608x392x455mm, making it a reliable and portable choice for any production.

Specifications

- Power Supply: AC220-240V, 50/60Hz
- Max. Power Consumption: 1100W
- Drive Current: 4.8A
- Heat up Time: 4mins
- Heater Type: Aluminum Heater Block
- Fluid Tank Capacity: 0.9Gal.
- Max Output Volume: 10.000Cuft/min
- Fluid Consumption @ full volume: 11.1 min/mL
- Max continuous Output Level: 100%
- Control Protocol: DMX-512
- DMX Channel Range: 2
- Data connectiors: 3-pin and 5-pin XLR
- N.W: 27Kg
- G.W: 31Kg
- Dimensions: 608x392x455mm
